LONGHORN TEXTBOOK ACCESS

The **Longhorn Textbook Access (LTA)** program is a new initiative that will significantly reduce the cost of course materials for students by using digital technology, while also allowing faculty to select the textbook and other course materials that best help meet course objectives.

It is a collaboration between UT Austin, the University Co-op, and textbook publishers. Participation in the program is optional for both students and faculty, and some of your courses may be a part of this program.
